

PKI Personnel Seminar Series
“Leaders in Science”

Tuesday 6 July

12 pm NAB Auditorium, Garvan Institute

Prof Andreas Strasser

Joint Division Head, Molecular
Genetics of Cancer, WEHI

“The molecular control of cell death and its role in cancer”

Tuesday 3 August

Prof John Mattick

Professor of Molecular Biology and
ARC Federation Fellow
IMB, University of Queensland

“The epigenetic programming of human development and cognition”

Tuesday 14 September

Prof Sarah Dunlop

Head, Experimental & Regenerative Neurosciences
The University of Western Australia

*“Regaining function after neurotrauma: translating basic science to
clinical trials for spinal cord injury”*

Tuesday 5 October

Prof Alan Cowman

Head, Division of Infection and Immunity
WEHI

“Malaria - from biology to clinical trials”

Thursday 18th November (4pm)

Prof David Sinclair

Co-director Paul F. Glen Laboratories
Dept of Pathology, Harvard Medical School

“Biological Mechanisms of Aging”
