“Regulation of Phosphoinositide 3-kinase signaling by Phosphoinositide Phosphatases”

Monday 1 August 2016 12PM, AUDITORIUM

Host: Prof John Mattick

Professor Christina Mitchell is currently the Academic Vice-President and Dean of the Faculty of Medicine, Nursing and Health Sciences at Monash University. Professor Mitchell trained as a physician scientist specialising in clinical haematology. In September 2011, she was promoted to the position of Dean. She was the first woman to be appointed Dean of Medicine in any of the Group of Eight Universities in Australia. In March 2015, Professor Mitchell was inducted on to the Victorian Honour Roll of Women, honoured for her leadership as the Dean of the Monash University Faculty of Medicine, Nursing and Health Sciences. In April 2015, it was announced that she is the recipient of the 2015 Lemberg Medal which is awarded annually to a distinguished biochemist in Australia.
