Professor & Chair of Health Economics in Department of Economics, Faculty of Business and Economics
Macquarie University

“Economics of Genomics: what do we know and where are going?””

Monday 19 March 2018 12PM, AUDITORIUM

Host: Prof Susan Clark

Professor Schofield is the inaugural Director of GenIMPACT: Centre for Economic Impacts of Genomic Medicine, and Professor & Chair of Health Economics in Department of Economics, Faculty of Business and Economics at Macquarie University. Her career has spanned the Australian Government public service, academia and clinical practice. Professor Schofield, her team and their collaborators have undertaken economic modelling to genomic medicine, modelling ageing and retirement and their relationships with health and the labour force; and development of economic models that measure the impact of illness not only on the health system, but also family economic circumstances, other government portfolios, and GDP.
