

International Fellow Symposium 2009

Diabetes and obesity: current concepts and future directions

- 9.20 **John Shine** AO FAA
Garvan Institute
- 9.30 **Steven O’Rahilly** FRS
Leslie Lazarus Oration
University of Cambridge Metabolic Research Laboratories
Monogenic obesity
- 10.20 **Alex Viardot**
Diabetes & Obesity Program, Garvan Institute
Hyperphagia and obesity in Prader-Willi syndrome
- 11.10 **Michael Horowitz**
Discipline of Medicine, University of Adelaide
Gastric emptying, incretin hormones and glycaemic control in diabetes
- 11.50 **Steven J Simpson** FAA
School of Biological Sciences, University of Sydney
Geometry of obesity and ageing
- 12.30 **Greg Cooney**
Diabetes & Obesity Program, Garvan Institute
Fat burning -is it good or bad for obesity and insulin action?
- 2.00 **Steven O’Rahilly** FRS
University of Cambridge Metabolic Research Laboratories
Severe insulin resistance in humans
- 2.40 **David James** FAA
Diabetes & Obesity Program, Garvan Institute
Diabetes and insulin resistance? 3001 a space odyssey
- 3.50 **John Prins**
Mater Medical Research Institute
Adiponectin in insulin resistance & diabetes
- 4.30 **Jonathan Shaw**
Baker IDI Heart and Diabetes Institute
Diabetes - an epidemiological and clinical summary

Steven O’Rahilly

Monday, 14 December
9.20am-5.30pm

Garvan Institute
NAB Auditorium
384 Victoria Street
Darlinghurst 2010
